ABOUT US

VetsBrands is a Company that was founded by Dr Ockert Botha (BVSc) in 2012

VetsBrands is wholly owned by a group of likeminded Veterinarians and does not have any non-Veterinarian shareholders

The VetsBrands group of Vets believe in a holistic approach to animal health. This includes the need for optimal nutrition as well as the combination of Medicines and Nutraceuticals

The VetsBrands range of products is sold exclusively by Veterinarians and Vet owned Vet Shops

VetOnly™ ad infinitum

VetsBrands

Quality assured by Vets

MISSION STATEMENT

-  To be an exclusively Vet owned company, that will strive to serve our profession to the best of our ability, whilst ensuring a reasonable profit for our Veterinary Shareholders but in doing so, always placing the needs of our patients first
-  To develop and supply scientifically formulated, high quality, affordable Equine and Pet products and Pet foods to the Veterinary profession
-  To supply these products exclusively and ad infinitum only via Veterinarians
-  To constantly innovate and develop products that are founded on international standards

Medicinal Products

Cutting edge products for
the prevention and
treatment of diseases and
medical syndromes

DOXYVET

Reg No. G4070 Act 36/1947

Sustained release oral antibiotic tablets for dogs

Composition

Each tablet contains:
300mg Doxycycline Hydrochloride

Indications

DoxyVet is indicated for use in dogs for the treatment of Ehrlichiosis (tropical canine pancytopenia). DoxyVet is indicated for use in dogs for the treatment of a wide range of infections caused by organisms sensitive to Doxycycline. These include alimentary tract infections, respiratory tract infections, pneumonia, septicaemias, urogenital tract infections, wounds and bite wounds.

Packaging

100 Tablets

Direction for use

Ehrlichiosis:

The recommended dose is an oral dosage of 10mg per kilogram body mass orally, per day for a period of 28 days. It is extremely important to complete the full 28 day course of treatment.

USE ONLY AS DIRECTED

Other Infections:

The recommended dose is an oral dosage of 10mg per kilogram body mass, per day for a period of 5-7 days.

Advantages

- Extensive GLP clinical trial verified effective Ehrlichiosis treatment in dogs
- Scientifically based dosage regime verified by extensive GLP trial
- Sustained release, non coated, scored tablet ensures minimal emesis
- Single strength 300mg tablet may be used in all patient sizes - No need to keep different strength tablets
- Registered at 0.25 tablet per 7.5kg BW OID

ENDOVET

Reg No. G4279 Act 36/1947

Oral broad spectrum anthelmintic tablets for dogs

**DOUBLE
STRENGTH**

One tablet per
20kg bodyweight

Composition

Each tablet contains:
300mg Pyrantel Pamoate,
100mg Praziquantel
300mg Febantel

Indications

EndoVet is indicated for use in dogs as a highly effective treatment against Ascarids, Hookworms and Tapeworms.

Packaging

50, 100, 500 Tablets
Display box containing 20 x 2 tablets in a dispensing carton envelope makes tablets easy to promote and dispense.

Direction for use

Dosage

Dose according to body mass.

1 tablet per 20kg body mass.

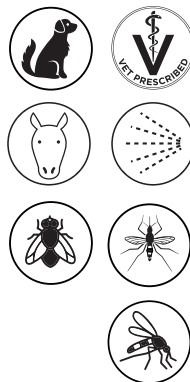

Advantages

- Exceptional efficacy proven during extensive GLP registration trials as well as country wide field trials
- Unique cross scored tablet dosed at 1 tablet per 20kg reduces the need to keep different tablet sizes
- Small tablet size ensures patient compliance
- Extremely cost effective

SUMMERSPRAY

Reg No. G4163 Act 36/1947

A wipe and spray on repellent for protection against midges (Culicoides), mosquitoes, biting flies and stable flies on horses and dogs

Composition

Diethyl Toluamide (DEET) 15,0% m/v
Piperonyl Butoxide 1,0% m/v
Eucalyptus oil
Tagete oil
D-Limonene
Alpha Terpineol

Indications

SummerSpray is indicated for use in horses and dogs as the ultimate Midge, Mosquito and Fly repellent. It is indicated as an aid in the prevention of African Horse Sickness, other insect transmitted viral diseases and Sweet Summer Itch.

Packaging

125ml, 1 litre and 5 litre containers

Direction for use

SummerSpray must be applied early mornings and late afternoons during Spring, Summer and Fall when biting insect activity is high. (See label for full instructions)

Advantages

- Unique combination of DEET and four synergistic oils ensures maximal Midge, Mosquito and Fly repellency
- Extended efficacy for more than 16 hours proven in extensive blinded GLP trials
- Contains no Citronella known to attract Midges
- Exceptional safety in horses, mares in foal and foals when used according to instructions proven over a five year field trial

Evidence Based Nutraceuticals

Cutting edge evidence based
nutraceuticals as an aid in the
management and prevention
of diseases and medical
syndromes

CARTLIFOCUS

Reg. No. V29998 Act36/1947

As a nutritional aid in the prevention, protection and management of degenerative joint disease due to congenital disorder and post joint surgery in dogs. Also indicated in protection of joint integrity in active and working dogs and giant breeds

Composition

Each tablet contains:

Avocado Soybean	
Unsaponifiable (ASU).....	100mg
Glucosamine HCL.....	200mg
Chondroitin SO4.....	150mg
Undenatured Collagen II.....	10mg

Indications

CartliFocus is indicated for use in dogs as a nutritional aid in prevention and management of degenerative joint disease as a result of congenital disorder and post joint surgery. It is also an effective protection of joint integrity in active working dogs and giant breeds.

Not indicated for use in chondrodystrophic breeds. For these breeds, see ChondroFocus (page 13).

Packaging

100 Tablets

Direction for use

Supply 1 CartliFocus tablet per 10kg of dog's body-weight twice per day for the first 10 days. After 10 days reduce to one tablet per 10kg of dog's body-weight, once per day for the rest of the dog's life. (may be combined with NSAID).

Recommended for use from 3 months on.

Advantages

- Evidence based raw materials including first in South Africa ASU product for dogs
- Scientifically based dosages of ASU, Glucosamine HCL, Chondroitin Sulfate and Undenatured Collagen II
- Optimum high potency ASU, Glucosamine HCL, low molecular weight bovine Chondroitin and Undenatured Collagen II
- The ultimate evidence based joint protective and cartilage regenerative nutraceutical combination in the prevention and treatment of degenerative joint diseases
- Specifically formulated to ensure maximal cartilage health and joint integrity in active giant breeds and active working dogs
- Easy to dose exceptionally palatable tablet formulation

ARTHROFOCUS

Reg No. V23021 Act 36/1947

As a nutritional aid in the management of mild to moderate degenerative joint disease in dogs and cats

Composition

Each kilogram contains:

Chondroitin Sulphate (Bovine)	40g
Glucosamine HCL	60g
Green Lipped Mussel Extract	100g
Beta 1-3D Glucan (pure)	1000mg
MSM	100g
Krill Powder (DHA & EPA)	100g
Manganese AAC	5g
Ascorbic Acid	30g
Whey Powder	100g
Brewers Yeast Powder	450g

Indications

ArthroFocus is indicated for use in dogs and cats as a nutritional aid in the management of mild to moderate degenerative joint disease both as an aid in treatment as well as in protecting the joints from further degenerative joint disease.

Packaging

250g and 750g

Direction for use

Loading Dose:

1 gram per 2kg of dog's bodyweight

Frequency:

Twice per day

Duration:

For the first 10 days

Maintenance Dose:

1 gram per 2kg of dog's bodyweight

Frequency:

Once per day

Duration:

For the rest of the dog's life, or replace later with Arthri-Joint. (May be combined with NSAIDs and used in conjunction with CartliFocus - page 11)

Advantages

- Contains six evidence based Nutraceuticals including Beta Glucan, Omega-3 and Co-factors
- Evidence based raw materials
- Science based dosages
- Includes high levels of DHA & EPA from Krill powder
- Potent cartilage protectant and inflammatory modulator for the management of mild to moderate degenerative joint disease

CHONDROFOCUS SMALL BREED

Reg No. V30000 Act 36/1947

As a nutritional aid in the prevention and management of Intervertebral Disc Disease (IVDD) in dogs

Composition

Each tablet contains:

Resveratrol.....	50g
ASU (Avocado-Soybean Unsaponifiables).....	40mg
MSM.....	30mg
Sodium Ascorbate.....	10mg
α - Tocopheryl Acetate.....	175 IU
Excipients.....	215mg

Indications

ChondroFocus is indicated as a nutritional aid in the prevention and management of Intervertebral Disc Disease (IVDD) in dogs.

Packaging

100 Tablets

Direction for use

Loading Dose:

1 tablet per 5kg of dog's bodyweight

Frequency:

Twice per day

Duration:

For the first 10 days

Maintenance Dose:

1 tablet per 5kg of dog's bodyweight

Frequency:

Once a day

Duration:

For as long as is clinically needed

Recommended from as young as 3 months onwards

Advantages

- Evidence based raw materials
- Science based dosages of Resveratrol, ASU and MSM
- Unique Nutraceutical combination proven to prevent degeneration of intervertebral discs
- The ultimate intervertebral disc protectant, for use in Chondrodystrophic breeds
- Specifically formulated for disc support. Contains no Glucosamine or Chondroitin
- Easy to dose palatable tablet formulation

CHONDROFOCUS LARGE BREED

Reg No. V30000 Act 36/1947

As a nutritional aid in the prevention and and management of Intervertebral Disc Disease in larger breed Chondrodystropic dogs such as Bassets, Beagles and Bulldogs

Composition

Each tablet contains:

Resveratrol	200mg
ASU (Avocado-Soybean Unsaponifiables)	160mg
MSM	80mg
Sodium Ascorbate	40mg
Excipients	860mg

Indications

- ChondroFocus is indicated in the prevention and management of Intervertebral Disc Disease in larger breed Chondrodystropic dogs such as Bassets, Beagles and Bulldogs
- Arthritic conditions where concomitant IVDD is also present and Glucosamine/Chondroitin is contraindicated

Chondrofocus is also indicated in dogs suffering from:

- Cervical spondylomyelopathy (CSM), or wobbler syndrome of dogs
- Canine degenerative lumbosacral stenosis (DLSS) (Cauda equina syndrome) of dogs
- Discospondylitis in dogs
- ChondroFocus is also indicated in all dogs suffering from Arthritic conditions where concomitant IVDD is also present and Glucosamine is contraindicated

Packaging

100 Tablets

Direction for use

Loading Dose:

1 tablet per 20kg of dog's bodyweight

Frequency:

Twice per day

Duration:

For the first 10 days

Maintenance Dose:

1 tablet per 20kg of dog's bodyweight

Frequency:

Once a day

Duration:

For as long as is clinically needed

Recommended from as young as 3 months onwards

Advantages

- Evidence based raw materials
- Science based dosages of Resveratrol, ASU and MSM
- Unique Nutraceutical combination proven to prevent degeneration of intervertebral discs
- The ultimate intervertebral disc protectant, for use in Chondrodystrophic breeds
- Specifically formulated for Larger Breed Chondrodystrophic dogs or dogs suffering from Arthritis, as well as spinal disease conditions, where the use of Glucosamine and Chondroitin should be avoided
- Easy to dose palatable tablet formulation

DERMOFOCUS

Reg No. V23293 Act 36/1947

As a nutritional aid in the management of Atopy and other allergy-based skin diseases

Composition

Each ml contains:

Linoleic Acid.....	233mg
Eicosapentaenoic Acid.....	88mg
Docosahexanoic Acid (DHA).....	45mg
Gamma Linolenic Acid.....	2.0mg
Linolenic Acid.....	12mg
Vitamin A.....	120IU
Vitamin E.....	2.0IU
Vitamin D3.....	12IU
Biotin.....	120mcg
Pyridoxine HCL.....	0.5mg
Inositol.....	2.0mg
Zinc AAC.....	15mg
MSM.....	2.0mg
Methionine.....	2.0mg
Omega 6:3 ratio.....	1.6:1

Indications

DermoFocus, with its high Omega-3 and low Omega-6 formulation, is indicated for use in dogs and cats as a nutritional aid in the management of allergy-based inflammatory skin diseases.

Packaging

200ml and 500ml

Direction for use

Shake well before use.
Under no circumstances should DermoFocus be used in conjunction with Shine & Shed Oil, or other Omega-6 oil supplements.
Use 1ml per 5kg of dog's or cat's bodyweight, twice per day, for the first 10 days. Maintain with 1 ml per 5kg of dog's or cat's bodyweight, once a day, for as long as clinically needed.

Advantages

- Contains evidence based inflammatory modulating animal origin Omega-3 from aquaculture Krill and cold water Fish Oil origin
- Specifically formulated for the management of allergic skin conditions
- Contains high levels of Biotin, Zinc, Methionine as well as MSM
- Includes high levels of potent Omega-3 (DHA & EPA) including Krill Oil
- Most favourable Omega 6:3 ratio (1.6:1) available

CARDIOFOCUS

Reg No. V28395 Act 36/1947

As a nutritional aid in the prevention and management of cardiac diseases in dogs and cats

Composition

Each kilogram contains:

Krill Powder.....	70g
Beta Glucan.....	100g
Creatine.....	50g
L Carnitine.....	200g
Taurine.....	100g
Co Enzyme Q10.....	10g
Vitamin E.....	10g
Vitamin C.....	30g
Crataegus.....	100g
Megnesium AAC.....	2g
Selenium AAC.....	0,002g

Indications

CardioFocus is indicated for use in dogs and cats as a nutritional aid in the prevention and management of cardiac diseases.

Packaging

250g and 750g

Direction for use

Loading Dose:

1 gram per 2kg of dog's or cat's bodyweight

Frequency:

Twice per day

Duration:

For the first 10 days

Maintenance Dose:

1 gram per 2kg of dog's or cat's bodyweight

Frequency:

Once per day

Duration:

For as long as is clinically needed

Advantages

- Evidence based raw materials
- Science based dosages of L-Carnitine, Taurine, Co-Enzyme Q10 and DHA & EPA
- Optimal high potency DHA & EPA derived from Krill powder
- The ultimate cardio protectant Nutraceutical, for use in Cardiomyopathy susceptible breeds
- Exceptionally supportive aid in the management of cardiac disease syndromes
- Easy to dose palatable powder formulation

HEPAFOCUS

Reg No. V24332 Act 36/1947

As a nutritional aid in the management of liver, pancreatic disease and toxicosis in dogs and cats

Composition

Each kilogram contains:

Thiotic Acid (Alpha Lipoic Acid)	20g
Pangamic Acid - DMG B15	20g
Betaine	60g
DL Methionine	10g
Phosphatidylcholine	100g
Choline Chloride	100g
Inositol	5g
Beta Glucan	10g
Vitamin B1 (Thiamine)	1g
Vitamin B2(Riboflavin)	1g
Vitamin B6 (Pyridoxine)	1g
Vitamin B12 (Cyanocobalamin)	1g
D-alpha Vitamin E	6g
Milk Thistle	100g
Artichoke Leaf	200g
Schizandra chinensis	10g
Panax ginseng	100g
Whey Protein	100g
Desiccated Liver/extract	100g
Brewers yeast	100g

Packaging

50g, 250g and 750g

Indications

HepaFocus is indicated for use in dogs and cats as a nutritional aid in the management of liver disease, pancreatic disease and toxicosis. Also indicated in paracetamol toxicity in cats, as well as post biliary treatment in dogs.

Direction for use

Loading Dose:

Use 1 gram per 2kg of dog's or cat's bodyweight, twice per day, for the first 10 days. Maintain with 1 gram per 2kg of dog's or cat's bodyweight, once per day for as long as clinically needed.

May mix two parts HepaFocus with one part water and force feed with a syringe.

Hepafocus 50g ideal for dispensing post Biliary!

Advantages

- Evidence based raw materials
- Science based dosages
- Complete Hepatic support - including Milk Thistle and other plant extracts
- Easy to dose palatable powder formulation

RENOFOCUS OIL

Reg. No. V 28394 Act36/1947

As a nutritional aid in the protection, prevention and management of Renal Diseases in dogs and cats

Composition

Each ml contains:

Linoleic Acid.....	233mg
Linolenic acid.....	12mg
Gamma Linolenic acid.....	2mg
Eicosapentaenoic acid (EPA).....	88mg
Docosahexanoic acid (DHA).....	45mg
Chitosan.....	50mg
Vitamin B12.....	2mg
Pyridoxine.....	6mg
Folic acid.....	2mg
Vitamin C.....	30mg
Vitamin E.....	10mg
Co-Enzyme Q10.....	10mg
Hydrolysed Chicken Liver.....	190mg

Contains: Krill oil, Salmon oil, and Cold water fish oils

Indications

RenoFocus is indicated for use as a nutritional aid in dogs and cats in the protection and prevention of Renal Diseases where the beneficial effects of low levels of Omega 6 and high levels of Omega-3 (DHA & EPA) combined with Co-Enzyme Q10, is recognised.

Packaging

200ml and 500ml

Direction for use

Add 1ml of RenoFocus per 2kg of dog's or cat's bodyweight, to the food, twice per day for the first 10 days. After 10 day reduce to 1 ml per 2kg of dog's or cat's bodyweight once per day. In rare instances dogs and cats may refuse to eat the food and it may be necessary to dose the RenoFocus with a syringe.

May be used in conjunction with RenoFocus tablets (page 18).

Advantages

- Evidence based raw materials
- Science based dosages of DHA & EPA, Co-Enzyme Q10, Chitosan and Co-factors
- Optimum high potency DHA & EPA derived from Krill Oil
- The ultimate renoprotectant nutraceutical combination in the protection and prevention of Renal Diseases
- Easy to dose exceptionally palatable oil formulation

RENOFOCUS

Reg. No. V 29999 Act36/1947

As a nutritional aid in the management of Chronic Renal Disease (CRD) in dogs and cats

Composition

Each tablet contains:

Calcium Carbonate.....	500mg
Potassium Citrate.....	500mg
Chitosan.....	250mg
Vit B12.....	10mg
Pyridoxine.....	30mg
Folic acid.....	10mg
Vitamin C.....	150mg
Vitamin E.....	50mg
Co-Enzyme Q10.....	50mg

Indications

RenoFocus is indicated for use as a nutritional aid in dogs and cats in the management of mid to end stage renal disease.

Packaging

100 Tablets

Direction for use

Supply 1 RenoFocus tablet per 10kg of dog's or cat's bodyweight, twice per day, for the first 10 days. After 10 days, reduce to 1 tablet per 10kg of dog's or cat's bodyweight, once per day for the rest of the pet's life.

May be used in conjunction with RenoFocus Oil (page 17).

Advantages

- Evidence based raw materials
- Science based dosages of Chitosan, Calcium Carbonate, Potassium Citrate Co-Enzyme Q10 and co-factors
- Optimum high potency Chitosan phosphate binders and alkalinizing agents
- Exceptional supportive aid in the management of renal disease syndromes
- The ultimate nutraceutical combination proven to reduce mortality rate in dogs and cats with CRD
- Easy to dose exceptionally palatable, cross scored tablet formulation

STOMAFOCUS

Reg. No. V 27180 Act36/1947

As a nutritional aid in the prevention and management of diseases of the gingival mucous membrane in dogs and cats

Composition

Each kilogram contains:

Co-Enzyme Q10.....	10g
Green Lipped Mussel Extract.....	50g
Thiotic Acid.....	10g
Ascorbic Acid.....	25g
Whey Powder.....	300g
Excipient.....	100g

Indications

StomaFocus is indicated for use in dogs and cats as a nutritional aid in the management of diseases of the gingival mucous membrane.

Also indicated as a preventative measure in dog breeds susceptible to early dental pathology.

Packaging

50g, 250g and 750g

Direction for use

Loading Dose:

1 gram per 2kg of dog's and cat's bodyweight

Frequency:

Twice per day

Duration:

For the first 10 days

Maintenance Dose:

1 gram per 2kg of dog's and cat's bodyweight

Frequency:

Once per day

Duration:

For as long as clinically needed

Recommended to used in conjunction with StomaFocus Oral Rinse (page 25)

Advantages

- Evidence based raw materials
- Scientifically based dosages
- Unique one of a kind combination for management of inflammatory gum disease in dogs and cats
- Easy to dose palatable powder formulation

General Supplements

ARTHRI-JOINT

Reg No. V30290 Act 36/1947

As a nutritional aid in the management of severe to end-stage joint disease in dogs and cats

Composition

Each kilogram contains:

Glucosamine HCL	500g
MSM	250g
Green Lipped Mussel Extract.....	50g
Excipients.....	200g

Indications

Arthri-Joint is indicated for use in dogs and cats as a nutritional aid in the management of severe to end-stage joint disease where anti-inflammatory and analgesic effects are paramount.

Packaging

250g and 750g

Direction for use

Use 2.5g per 10kg of dog's bodyweight, twice per day, for the first 10 days. Maintain with 2.5g per 10kg of dog's bodyweight, once per day. Dosage may be reduced to coincide with clinical efficacy. Use for the duration of the dog's life.

May be used in conjunction with CartliFocus (page 11).

May safely be combined with NSAIDs

Advantages

- Unique combination of Anti-inflammatory modulating nutraceuticals
- Mega-dose formulation ensures optimal anti-inflammatory effect
- Formulated for the management of severe to end stage joint disease
- Extremely cost effective

SHINE & SHED OIL

Reg No. V22188 Act 36/1947

As a nutritional aid in ensuring optimal coat health whilst reducing excessive shedding of hair in dogs

Composition

Sunflower seed oil, Canola oil, Wheat Germ oil, Primrose oil, Flax seed oil and Vitamin E acetate

Indications

Shine & Shed Oil is indicated for use in dogs as a nutritional aid in ensuring optimal coat health whilst reducing excessive shedding.

Please note: Shine and Shed Oil should not be used in dogs that suffer from allergic dermatitis. For these conditions, see DermaFocus (page 14).

Packaging

250 ml and 500 ml

Direction for use

Loading Dose:

2.5ml per 5kg of dog's bodyweight

Frequency:

Twice per day

Duration:

For the first 10 days

Maintenance Dose:

2.5ml per 5kg of dog's bodyweight

Frequency:

Once per day

Duration:

For as long as is clinically needed (Contact your Veterinarian if skin condition does not resolve itself within 10 days)

Advantages

- Unique proprietary blend of plant-based Omega-6 oils
- Formulated for the management of dry skin with excessive shedding
- Extremely cost effective

LIFESTEM SPIRULINA

Reg. No. V 24408 Act36/1947

A nutritional aid in the stimulation of immunity and supplying essential nutrients in dogs

Composition

Each kilogram contains:
Spirulina Platensis.....400mg
Glyconutrients.....600mg

Indications

Lifestem Spirulina is indicated for use in immune compromised and chronically debilitated dogs suffering from neoplastic diseases and undergoing chemotherapy as a nutritional aid in stimulating immunity, haematopoiesis and supplying essential nutrients.

May also be used as a general supplement where nutritional shortcomings are present.

Packaging

50 and 200 Tablets

Direction for use

Supply 1 tablet of Lifestem Spirulina per 10kg of dog's bodyweight once per day for as long as clinically needed.

Advantages

- Unique combination of Spirulina and Glyconutrients
- The above combination supplies an enormous array of Micronutrients that stimulates the immune system and lends support to dogs suffering from chronic debilitating diseases including Neoplastic diseases and chemotherapy

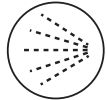

Health & Hygiene

Routine Nutraceutical
combinations for the
management of certain
medical syndromes

STOMAFOCUS ORAL RINSE

As a nutritional aid in freshening breath and maintaining mouth hygiene

Composition

Each ml contains:

Chlorhexidine0.1% mm
Zinc Gluconate0.3% mm
Co-Enzyme Q10
Hydroxy Propyl Cellulose

Indications

StomaFocus Oral Rinse is indicated for use in dogs and cats as a nutritional aid in freshening breath and maintaining mouth hygiene

Packaging

125ml

Direction for use

Loading Dose:

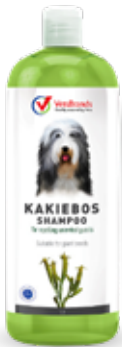

- Shake well before use
- Spray 2 sprays on the gums; left and right, top and bottom
- Give a single spray on the middle of the tongue
- Recommended to be used in conjunction with StomaFocus Powder (page 19)

Advantages

- Synergistic evidence based active ingredient combinations for ultimate efficacy
- Science based dosages
- Unique one-of-a-kind combination oral spray for the management of gum disease in dogs and cats

SHAMPOOS

Our shampoos are effective and affordable!

KAKIEBOS

- ✓ Kakiebos is recognized for its antiseptic & insect repelling properties.
- ✓ This shampoo is perfect for giant breeds who are known to attract uninvited guests such as ticks & fleas.
- ✓ Fresh smell whilst ensuring a shiny and glistening coat.

CHAMOMILE & HONEY

- ✓ Chamomile is known for its anti-inflammatory qualities, combined with the anti-oxidizing & antibacterial effect of Honey.
- ✓ This shampoo is perfect for puppies and dogs with sensitive skin.
- ✓ Shiny & irritation free coat whilst ensuring a soothing smell of chamomile & honey.

TEA TREE OIL

- ✓ Tea Tree Oil is known for its antifungal and antiseptic qualities.
- ✓ This shampoo will leave your dog's coat shiny whilst combatting fungus & exuding pleasant aromatic fragrances.
- ✓ Indicated for regular use in all breeds, as well as for dogs with dandruff & flaky skin.

LAVENDER

- ✓ Lavender is known for its relaxing, aromatic & calming properties.
- ✓ This shampoo will leave your dog's coat shiny whilst the ready added Conditioner will ensure a soft and radiant coat.
- ✓ Lavender also minimise shedding, therefore it is perfect for breeds known for excessive shedding.

Dog Food

Small-Medium Puppy

Ingredients

Chicken meal, ground corn, rice (15% min), chicken & ostrich fat (with mixed tocopherols), wheat bran, beet pulp, corn gluten, salmon oil, yeast (including beta-glucans), mannan-oligosaccharides, hydrolysed chicken liver, salt, zeolite, choline chloride, vitamin A, vitamin D, vitamin E, vitamin C, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin supplement, Vitamin B12, pyridoxine hydrochloride, folic acid, potassium iodide, sodium selenite, taurine, L-carnitine, glucosamine,
- Nutritional Additives (/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

*May contain GVO

Advantages

Gastro-Intestinal Health

The addition of Mannan-oligosaccharides that acts as a prebiotic for the naturally occurring probiotics within the gut help to bind stools and aids in better overall digestion. Also assists with maintaining optimal gastro-intestinal health.

Immune Support

Beta 1.3/1.6-D glucan is proven to optimise vaccinations and helps to activate the immune system to better fight bad bacteria, viruses and other pathogens that your dog might be exposed to.

Healthy Skin & Coat

The single-source, exceptional quality chicken protein contains the essential amino acids for skin and coat maintenance. Exclusive use of low FFA poultry oil, ensures optimal Omega 6:3 fatty acid ratio and reduces the incidence of allergic skin disease, whilst promoting a supple, shiny coat.

Cardiac Support

High levels of Omega-3 derived from salmon and fish oils, assist with healthy heart function. The addition of taurine and L-carnitine as vital amino acids, aids the heart muscle, assists in longevity and reduces common cardiac conditions.

Metabolic Support

The optimal balance of highly digestible starch sources, such as rice and other non-maize carbohydrates stabilises blood glucose levels and thereby reduces life threatening hypoglycemia in toy breed dogs.

Joint Support

Glucosamine can be beneficial in maintaining a dog's joint and tendon health, thereby ensuring that they can stay active, by enhancing strength and mobility.

Ingredients

Ground corn, dehydrated poultry protein, rice (15% min), chicken & ostrich fat (with mixed tocopherols), wheat bran, beet pulp, corn gluten, salmon oil, yeast (including beta-glucans), mannan-oligosaccharides, hydrolysed chicken liver, salt, zeolite, choline chloride, vitamin A, vitamin D, vitamin E, vitamin C, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin, vitamin B12, pyridoxine hydrochloride, folic acid, potassium iodide, sodium selenite, taurine, l-carnitine, glucosamine,

- Nutritional Additives (/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

*May contain GVO

Advantages

Gastro-Intestinal Health

The addition of Mannan-oligosaccharides that acts as a prebiotic for the naturally occurring probiotics within the gut help to bind stools and aids in better overall digestion. Also assists with maintaining optimal gastro-intestinal health.

Immune Support

Beta 1.3/1.6-D glucan is proven to optimise vaccinations and helps to activate the immune system to better fight bad bacteria, viruses and other pathogens that your dog might be exposed to.

Healthy Skin & Coat

The single-source, exceptional quality chicken protein contains the essential amino acids for skin and coat maintenance. Exclusive use of low FFA poultry oil, ensures optimal Omega 6:3 fatty acid ratio and reduces the incidence of allergic skin disease, whilst promoting a supple, shiny coat.

Cardiac Support

High levels of Omega-3 derived from salmon and fish oils, assist with healthy heart function. The addition of taurine and L-carnitine as vital amino acids, aids the heart muscle, assists in longevity and reduces common cardiac conditions.

Metabolic Support

The optimal balance of highly digestible starch sources, such as rice and other non-maize carbohydrates stabilises blood glucose levels. This maintains the energy levels that best supports the optimal growth tempo as well as tendon and joint health for rapidly growing puppies.

Joint Support

Glucosamine can be beneficial in maintaining a dog's joint and tendon health, thereby ensuring that they can stay active, by enhancing strength and mobility.

Ingredients

Ground corn, dehydrated poultry protein, rice (10% min), chicken & ostrich fat (with mixed tocopherols), wheat bran, beet pulp, corn gluten, salmon oil, yeast (including beta-glucans), mannan-oligosaccharides, hydrolysed chicken liver, salt, zeolite, choline chloride, vitamin A, vitamin D, vitamin E, vitamin C, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin, vitamin B12, pyridoxine hydrochloride, folic acid, potassium iodide, sodium selenite, taurine, L-carnitine, glucosamine, chitosan, green lipped mussel extract - **Nutritional Additives (/kg):** Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120 mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

*May contain GYO

Advantages

Kidney Support

Chitosan may help to reduce chronic renal disease in dogs by binding phosphorus and thereby decreasing its absorption to prevent kidney overload.

Cardiac Support

High levels of Omega-3 derived from salmon and fish oils, assist with healthy heart function. The addition of taurine and L-carnitine as vital amino acids, aids the heart muscle, assists in longevity and reduces common cardiac conditions.

Joint Support

Glucosamine can be beneficial in maintaining a dog's joint & tendon health, thereby ensuring that they can stay active, by enhancing strength and mobility. Green lipped mussel extract is known to prevent cartilage degeneration and inflammation in older arthritic dogs, thereby slowing the progression of arthritis. The anti-inflammatory effect reduces pain and ease mobility.

Metabolic Support

The optimal balance of highly digestible starch sources such as rice and other non maize carbohydrates ensures optimal metabolic function and thereby reduces the risk of obesity.

Healthy Skin & Coat

The exceptional quality proteins contains the essential amino acids for skin and coat maintenance. Exclusive use of low FFA poultry oil ensures optimal omega 6:3 fatty acid ratio and reduces the incidents of allergic skindeceases whiles promoting a supple shiny coat.

Ingredients

White Rice, Turkey Meat Meal (25% min), Ostrich Fats & Oils (with mixed Tocopherols), Vegetable Dietary Fibres, Beet Pulp, Hydrolysed Ostrich Liver, Pelagic Fish Oils, Potassium Chloride, Salt, Choline Chloride, Vitamin A, Vitamin D, Vitamin E, Vitamin C, Zinc Sulphate, Ferrous Sulphate, Manganese Sulphate, Niacin, Calcium Pantothenate, Thiamine Mononitrate, Copper Sulphate, Riboflavin, Vitamin B12, Pyridoxine Hydrochloride, Folic Acid, Calcium Iodate, Sodium Selenite
- Nutritional Additives (/kg): Vitamin A 12000 IU, Vitamin D 1000 IU, Vitamin E 778 IU, Vitamin C 50 IU, Zinc Sulphate 120 mg, Ferrous Sulphate 45 mg, Manganese Sulphate 6.5 mg, Folic Acid, Copper Sulphate 6 mg

*May contain GMO

Advantages

Sensitive Skin

The addition of omega 3 fortified ostrich oil reduces allergic reactions by supplying high levels of DHA & EPA that substantially reduces the symptoms of allergic skin and gastro-intestinal reactions.

Sensitive Digestion

The single source Beet Pulp supplies Pre-Biotic fibres that stimulates Pro-Biotic organisms to normalise the healthy gut Microbiome thereby reducing the food related allergic gastro-intestinal diseases.

Novel Protein

The use of the novel, single source Turkey protein substantially reduces allergic reactions to generally utilised proteins such as beef, sheep, porcine and chicken proteins.

Corn & Wheat Free

The use of the single source rice starch substantially reduces allergic reaction of generally used grains such as corn, wheat and other cereals.

Ostrich Fat

The use of the novel ostrich fat substantially reduces allergic reactions to generally used fats such as beef, sheep and chicken.

Novel Beetpulp Fibre

The single source Beet Pulp Fibre eliminates allergic reactions to wheat bran.

Opti-Vet Adult Maintenance

Ingredients

Ground corn*, chicken and pork meal, rice (6% min), corn gluten, chicken & ostrich fat (with mixed tocopherols), wheat bran, yeast (including beta-glucans), mannan-oligosaccharides, pyrophosphates, hydrolysed chicken liver, Vitamins & Minerals (Including Vitamin E, A, D3, K3, B1, B2, B12, B6, Calcium pantothenate, Biotin, Choline Chloride, Niacin, Folic acid, Zinc sulphate, Copper sulphate, Ferrous sulphate, Manganese Sulphate, Selenium); glucosamine, yucca schidigera extract

*May contain GYO

Metabolizable Energy	3500 kcal/kg

Packaging

8kg, 20kg, 40kg

Advantages

Balanced levels of exclusively imported high quality protein with the high inclusion levels of rice and bovine free fats and oils allows for a healthy lifestyle for all adult breeds and sizes of dogs

A general size kibble with exceptional palatability makes it an ideal for household where dogs of different sizes needs to be fed a single high quality, yet affordable diet

The addition of selected Nutraceuticals such as MOS and Glucosamine ensures joint and digestive health, whilst still ensuring affordability

A company policy of lower profit margins subsidises the price of this optimal value for money dog food, that offers unsurpassed value for money in these difficult economic times

Dog Biscuits

Our New Range Of Dog Biscuits!

VETSBRANDS DOG BISCUITS

Puppy Biscuits

Adult Biscuits

Hypoallergenic Biscuits

Adult Dog Biscuits

CHICKEN FLAVOUR

HEALTH BENEFITS

Enriched with calcium for strong bone and teeth development

Low in sugar for a guilt free treat

FEEDING GUIDE

 Small to Medium Dogs:
1 - 3 biscuits per day

 Large to Giant Breed Dogs:
3 - 5 biscuits per day

BISCUIT SIZE:
Approximately 70mm x 30mm

Fresh water must always be available for your dog. Use only as a treat. Not a complete & balanced diet.

INGREDIENTS

Wheat and whole wheat flour, chicken meal, palm oil, sugars, brewer's yeast, tetrapotassium pyrophosphate, calcium carbonate, salt.

ADDITIVES

SENSORY: Palatability meat-based enhancers with chicken flavour.

PRESERVATIVES

Potassium sorbate and sodium metabisulphite.

GUARANTEED ANALYSIS

Crude protein	22% (min)
Moisture	10% (max)
Total fat	12% (min)
Crude fibre	2% (max)
Calcium	1.2% (max)
Sugar	0.3% (max)

Puppy Biscuits

CHICKEN FLAVOUR

HEALTH BENEFITS

Enriched with calcium for strong bone and teeth development

Low in sugar for a guilt free treat

FEEDING GUIDE

 Small to Medium Breed Puppies:
2 - 4 biscuits per day

 Large to Giant Breed Puppies:
4 - 6 biscuits per day

BISCUIT SIZE:
Approximately 50mm x 25mm

Fresh water must always be available for your dog. Use only as a treat. Not a complete & balanced diet.

INGREDIENTS

Wheat and whole wheat flour, chicken meal, palm oil, sugars, brewer's yeast, tetrapotassium pyrophosphate, calcium carbonate, salt.

ADDITIVES

SENSORY: Palatability meat-based enhancers with chicken flavour.

PRESERVATIVES

DON'T TAKE OUR WORD FOR IT!

SEE WHAT OUR CUSTOMERS HAVE TO SAY ABOUT VETSBRANDS!

“

I feed my Staffy and Labrador the Senior VetsBrands Dog Food and their coats are lovely plus they enjoy the food.

— **Ruth Barnes**

“

Vetsbrands supplements are all palatable. Huskies are fussy but they have no problem with any of the VetsBrands supplements.

— **Debbie Stafford**

“

I have four English Staffordshires and they are doing so well and their skin and coat look absolutely amazing. I started feeding them VetsBrands and within the first week I could see a difference in their eating routine and less landmines in my yard... No more skin irritation and bald patches and itchiness. Well done to the VetsBrands team, I highly recommend this dog food to anyone who wants to give their dogs the best nutrient balanced food!

— **Jeandre Du Preez**

“

Their food is top-notch. The energy levels of my Golden Retrievers have increased unbelievably so; their tails are up and they are bright eyed. Full of life again!

— **Julie Langley**

“

VetsBrands products build the immune system and keep dogs healthy and in excellent condition.

— **Freddie Brooks**

“

Best dog food. Best quality at the best price.

— **Tania Petersen**

NEW LOOK & IMPROVED FORMULATION!

We've recently updated the packaging of our Vetsbrands dog food and made improvements to its formulation to give your dog more nutritional value.
